

# Create a Word Search

**Adding the Suffixes -er, -ed and -ing to Words with More Than One Syllable  
(unstressed last syllable – DO NOT double the final consonant)**

Write your -er, -ed and -ing suffix spelling words into the word search and then fill in the gaps with random letters from the alphabet. Ask your friends and family if they can find the words in the wordsearch or see if you can remember where they are. Use a coloured pencil to shade in the hidden words when you find them.
