

Pandemics Procedures statement

In the event of any future pandemic Crestwood Park Primary School will seek to promote the health, safety and well-being of all the children and staff whilst seeking to sustain the School's key functions and services. In doing so we will follow all the appropriate recommendations from the World Health Organisation (WHO), the British Government, Public Health England (PHE), the Department for Education (DfE) and Dudley Council support teams.

In addition, we shall ensure that all members of our School community are kept informed as appropriate, with a particular emphasis on the communication to pupils, parents and employees through our website pages, newsletter and messages sent via the Sch.Life App. Messages and links will be posted on the School website and sent via Sch.Life when appropriate.

A lot has been learnt from COVID-19 and these lessons will be actioned for future pandemics if and as required by the lead agencies.
