

**LO: To predict what may happen next using modal verbs**

**1. Look carefully at these illustrations from *Eric* by Shaun Tan.**

**2. Think about these questions:**

What is powering Eric's leaf?

Was Eric upset?

Would they hear from him again?

How are the pantry plants powered?

Will they stay there forever?

### 3. Illustration Task:

Make an illustration (a drawing) for the book to show where Eric goes next, who he meets and what he does.

Include detail in your illustration so that it matches the style of Shaun Tan.

Write some sentences underneath your illustration to accompany the image. They must include modal verbs.

For example: He **will come** back one day, I hope.

Here is a modal verb bank to help you:
