

Interactive Homework Tab Guide for Children and Parents

1. To communicate with your teacher, and tell them about your home learning, log in to our school website <https://crestwoodpark.sch.life/> (you can't use this feature on the app, but you can still use your phone if you search for the actual website). You can use parents' log in details.

2. Click on the Homework tab, then click on the part where it says your name.

Use this tab to tell Mr Timmington all about your home-learning for this week (WB 18th January).

Using the 'answer' box below, you can tell me all about your home learning. You can also upload pictures of your work. I'd love it if children who are at home all or most of the time, could do this once a week.

Type your messages to your teacher here.!

Choose a file to upload

I have completed this homework

3. Type your message(s) here. You can upload documents too or you can write out longer pieces of written work if you want to. Click on the green tab to send your response to your teacher. You can keep adding to this, just keep adding more information below what you've already written (don't delete anything!)

Keep clicking on the green tab each time you've added more information.
