# Education Pack

# NOTE TO TEACHERS, CARERS & PARENTS

This pack has been created as a resource for teachers of Early Years and Key Stage One and can also be used by carers and parents.

It is full of engaging learning opportunities based on **Pirates Love Underpants** to help support your children's learning and enjoyment of the show.

In addition to building your children's Cultural Capital with the new experiences associated with a theatre trip this pack encourages expressive arts, imaginative play and supports their understanding of the world through stories, drama and activities.

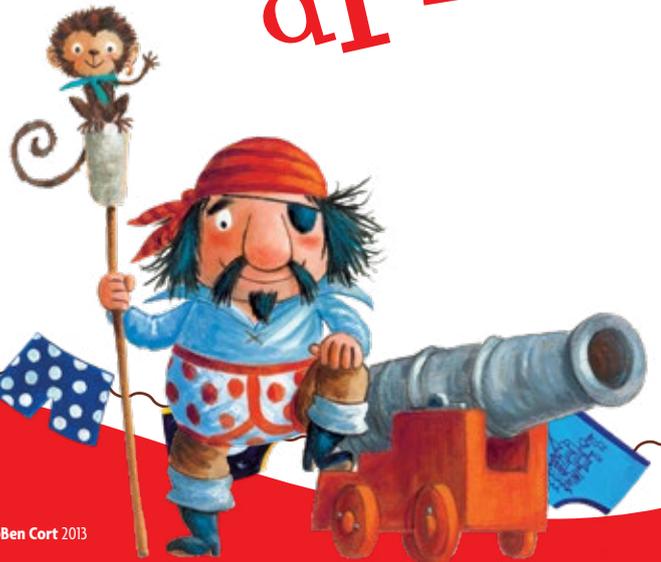

The pack is bursting with ideas and concepts that explore your children's personal social and emotional development, build on their communication and language skills and encourage curiosity and imagination: the foundation of our literacy and learning.

You'll see we've highlighted where these activities meet the statutory requirements of the EYFS, KS1 curriculum.

Through fully immersing themselves in some of the suggested activities in this pack following the production, children really will be rewarded, bringing their learning to life!

We hope  
you and your  
children  
enjoy using  
this pack!

How many pants can you see?

How many pants have pictures on?

How many pants can you see with patterns on?

You can also colour the pants in!

# COUNTING THE GOLD

Mathematics

## Instruction for teachers:

Here's some gold coins you can print off and use within the classroom to practise counting or timetables. They are in 1, 2, 5 and 10 denominations for your students to use. Feel free to cut them out and use them to help your children count the pirates' treasure!

# CAN YOU HELP THE PIRATES COUNT THEIR TREASURE?

Can you make 5  
from the coins?

Can you make 10 using  
the coins you have?

If you count all of the coins the pirates have found, what does it make?

Now it's your turn to make your own additions and subtractions.

You can use the coins and use the space to write your own numbers in.

$$\bigcirc + \bigcirc = \square$$

$$\bigcirc - \bigcirc = \square$$

$$\bigcirc + \bigcirc = \square$$

$$\bigcirc - \bigcirc = \square$$

# CAPTAIN EYEPATCH

Here are some of the lyrics from one of the songs from  
**Pirates Love Underpants**

Expressive Arts  
and Design  
Communication  
and Language

Captain, Captain Eyepatch,  
Aye, aye, Captain,  
Aye, aye, Eyepatch,  
Captain, Captain Eyepatch,  
He's got his eye on you.  
The Captain will be coming soon,  
We've got to be prepared!

Salute the Captain!  
Shiver me timbers!  
Scrub the deck!  
Sword fight!  
Walk the plank!

Click here to watch  
the video and listen  
to the song!

If you've already seen the show, do you remember this song? Can you remember the actions you learnt?

Here's your chance to practise the song and the actions that matches each line in the song. It doesn't have to be the same as in the show, you can decide what the action is. You can listen to the whole song, or you can choose a few lines to practise.

Can you repeat it in your best pirate voice while performing the matching actions.

Now it's your turn to come up with some other movements that a pirate might make. Here's some examples that might help:

Can you swim ashore?

Can you bury the treasure?

Can you behave like one of the sea creatures the pirates met?

Maybe behave like a shark?

How could you move like a crocodile?

Or Patricia the parrot

Or how about other sea creatures, like an octopus

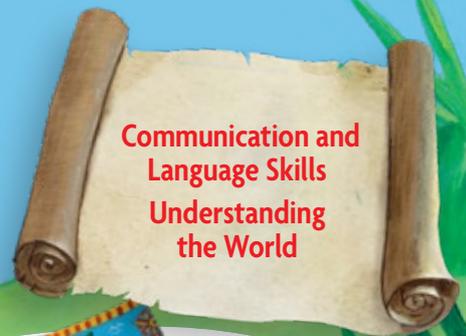

Or how might a crab move?

Can you think of something else that features in the show or book and how it moves? What would it look like? Can you make up a line for the song about it?

# AFTER THE PLAY
