KEY STAGES 1-2

Social, Health and Economic
(PSHE) education

INTRODUCTION

Welcome to our PSHE education Programme Builders for key stage 1 to 4, designed to accompany the 2020 edition of the [Programme of Study for PSHE education](#).

The Programme of Study sets out learning opportunities for each key stage, in three core themes: Health and Wellbeing, Relationships, and Living in the Wider World. The Programme Builders are designed to support the next step in planning your school's curriculum. The Programme Builders provide five different model programmes (two for the primary phase, two for secondary and one for middle/prep schools), each one comprising:

- **a long term plan** for the year across all year groups
- **separate grids** for each year group, setting out learning objectives for each half-term
- **links to resources** (both PSHE Association resources and resources carrying the Association's Quality Mark) that support each module. We will add new quality assured resources to the Programme Builders as they are published.

We have provided this range of models, in recognition that no two schools organise PSHE education in exactly the same way and no two PSHE leads will face exactly the same opportunities or challenges in designing their schemes of work. Schools should also tailor their PSHE education curriculum to the needs of their pupils, so are free to use and adapt the Programme Builder that best suits their school's needs.

Whilst each Programme Builder illustrates a different way of organising a PSHE curriculum, they all follow the same best practice principles. They build in developmental progression by revisiting themes year on year, building on and extending prior learning.

COVERING THE STATUTORY CONTENT

Although the Programme Builders organise content under different headings from those used in the content grids of the Department for Education's statutory guidance on [Relationships Education, RSE and Health education](#), each Programme Builder covers all of the statutory requirements for their phase, within a comprehensive PSHE education programme. And although each takes a slightly different approach, they each cover all of the Programme of Study learning opportunities for their phase as well.

USING THE PROGRAMME BUILDERS

Each Programme Builder begins with an overview of suggested content for each year group, for each half term. This is followed by more detailed grids for each year group, setting out broad learning objectives for each half term block and a list of regularly-updated links to relevant PSHE Association lessons and other resources that have gained our Quality Mark.

Before embarking on the development of your school's PSHE education provision, consider the needs of your pupils, the aims and ethos of the school, the local community and local environment in which the school is situated. This will help you to clarify your curriculum 'intent', and to ensure best practice curriculum design, tailored to your pupils' needs and your school's circumstances.

Local data (for example, from Public Health England's child and maternal health (CHIMAT) data sets and your local authority's joint strategic needs assessment (JSNA)), together with your knowledge of your pupils' needs, will help you to tailor your chosen Programme Builder to your specific needs if necessary. You might perhaps need to spend more time on a particular topic area, or bring content forward if your pupils need it sooner.

ABOUT THIS PROGRAMME BUILDER

1. QUESTION-BASED MODEL KS1-2

This programme builder is structured around an overarching question for each term or half term. These begin in key stage 1 as 'What? and 'Who?' questions and build throughout Key Stage 2 into 'Why?' and 'How?' questions. The three core themes from the Programme of Study are fully covered - colour-coding highlights whether the overall topic focus is Health and Wellbeing, Relationships or Living in the Wider World, although some half term blocks will draw on more than one core theme. Teaching builds according to the age and needs of the pupils throughout the primary phase with suggested developmentally appropriate learning objectives given to respond to each key question.

PRIMARY PSHE EDUCATION: LONG-TERM OVERVIEW – QUESTION-BASED MODEL

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 1	What is the same and different about us?	Who is special to us?	What helps us stay healthy?	What can we do with money?	Who helps to keep us safe?	How can we look after each other and the world?
Year 2	What makes a good friend?	What is bullying?	What jobs do people do?	What helps us to stay safe?	What helps us grow and stay healthy?	How do we recognise our feelings?

²Pupils are often aware that sexual intercourse does not always result in a baby and they may already be aware of or have heard about some common methods of contraception (e.g. condoms, the contraceptive pill or avoiding sexual intercourse). A basic understanding of contraception can be taught at primary level. This may include basic information about common forms of contraception (for example, condoms and the contraceptive pill) and how these can prevent a baby being made. Schools will need to decide whether this is appropriate for their community and cohorts and consider how to approach this as part of Sex Education.
